

JOB OFFER

INDUSTRIAL DESIGN TECHNICIAN

Established in Richmond, Quebec, INNOTEX is specialized in the development, manufacturing and distribution of firefighter protective gear. An innovative, dynamic, rapidly-growing company, INNOTEX is a leader in the manufacturing of firefighting gear. INNOTEX is proud to be a trusted partner of thousands of fire departments around the world.

We are currently looking for a dynamic person to fill the position of: **Industrial Design Technician**. Reporting to the manager – Technical Group, the selected candidate will offer manufacturing technical support for the development of manufacturing methods and instructions, and contribute to the planning, evaluation, measure and organization of the work. The technician's objective will be to ensure the work methods are the same across our three facilities.

CHALLENGES

- Complete motion studies
- Develop standardized methods, procedures and instructions
- Estimate and determine production times
- Participate in the development and establishment of new production techniques
- Develop manufacturing and ergonomic transformation methods
- Participate in the design, improvement and installation of integrated manufacturing systems
- Manage production savings projects through task automation
- Identify, recommend and manage the installation of production equipment
- Support facilities in their information requests and problem-solving

QUALIFICATIONS AND EXPERIENCE

- Hold a technical degree in industrial engineering or equivalent
- Minimum of 5 years relevant experience in a similar position
- Experience in motion studies in a manufacturing facility
- Ability to use an ERP software, mastery of the Office suite and very good knowledge of Excel
- Experience in the clothing field (an asset)
- Excellent French and very good English

KEY COMPETENCIES

- Ability to solve problems and analyze as you will be required to solve various production-related issues
- Self-sufficiency and independence to solve problems yourself
- Sense of observation to detect product quality issues
- Responsible, as you will be accountable for the proper functioning of production methods
- Initiative and dynamism to propose solutions that will improve production and employee work
- Appreciates teamwork

CONDITIONS

- Permanent position
- Competitive salary
- Profit-sharing
- Group insurance and pension plan
- The position is in Richmond, in the Eastern Townships
