

PUTTING ENERGY INTO INNOVATION.

INNOTEX
ENERGY™ / **EMS** TECH
RESCUE

HIGH PERFORMANCE EMS GEAR

 **INNO
TEX**®

POWERED BY ENERGY. INSPIRED BY EMS FIRST RESPONDERS.

DID YOU KNOW THAT 2 CALLS OUT OF 3 ARE FOR MEDICAL AID?*

INNOTEX® ENERGY™ is recognized for its comfort and safety. Firefighters around the world recognize its ability to handle the most demanding situations. Now EMS responders can enjoy the long list of INNOTEX ENERGY features and benefits in protective gear designed especially for them; INNOTEX ENERGY EMS Tech Rescue.

INNOTEX ENERGY EMS Tech Rescue: the lightness of energy.

The very same innovation & technology that has given INNOTEX ENERGY™ its well-deserved renown went into dual-certified** EMS Tech Rescue, with a few notable differences conceived expressly for EMS responders. EMS Tech Rescue is lighter, cooler and wears less rapidly than heavier, pricier turnout gear.

EMS responders, many of whom are integrated into fire departments, will appreciate the convenience & effectiveness of gear created with their needs in mind. Which is why, feature by feature, we designed ours around a strict set of tolerances and for specific EMS applications. No compromise, no cut corners, only world-class INNOTEX quality, durability, and reliability from collar to pant cuff.
